

Complete Screen-by-Screen Wireframe Guide

All Screens Index

Category	#	Screen Name	Description
AUTH	1	Login Page	Email + password, remember me, forgot password link
AUTH	2	Register Page	Name, email, password, confirm password
AUTH	3	Forgot Password	Enter email to receive reset link
AUTH	4	Reset Password	New password + confirm from email link
AUTH	5	Email Verification	Check your email screen after register
ONBOARDING	6	Create Workspace	First workspace setup after register
ONBOARDING	7	Invite Members	Invite team to workspace after creation
DASHBOARD	8	Home Dashboard	All workspaces + recent boards + activity
WORKSPACE	9	Workspace View	All boards in a workspace, sidebar nav
WORKSPACE	10	Workspace Settings	Name, logo, members, danger zone
WORKSPACE	11	Members Page	All members, roles, invite, remove
WORKSPACE	12	Invite via Link	Copy invite link, pending invites
BOARD	13	Board View (Empty)	Empty board with Add List prompt
BOARD	14	Board View (Populated)	Full board with lists and cards
BOARD	15	Board Header + Menu	Board title, visibility, members, filter
BOARD	16	Board Settings	Name, background, visibility, close board
LIST	17	Add List	Inline add list at end of board
LIST	18	List Actions Menu	Rename, copy, move, archive list
CARD	19	Card Item (Collapsed)	Card in list — labels, members, due date badges
CARD	20	Card Detail Modal	Full card: description, checklists, attachments, comments
CARD	21	Card — Move Card	Move to different board/list modal
CARD	22	Card — Assign Members	Member picker on card
CARD	23	Card — Labels	Label picker and creator
CARD	24	Card — Due Date Picker	Calendar date picker on card
CARD	25	Card — Attachments	File upload + attachment list
CARD	26	Card — Checklist	Add checklist, check items, progress bar
SEARCH	27	Search Results	Global search across workspace
PROFILE	28	User Profile	Avatar, name, email, change password
NOTIFICATIONS	29	Notifications Panel	Bell dropdown — assigned, mentioned, due
MOBILE	30	Mobile Board View	Responsive mobile layout

AUTH SCREENS (Screens 1-5)

Screen 1 — Login Page

Taskify
Manage work visually

- Design System
- Sprint Planning
- Product Roadmap

Welcome back
Sign in to your workspace

Email address
ali@example.com

Password
.....

☐ Remember me [Forgot password?](#)

Sign In

or

G Continue with Google

[Don't have an account? Sign up](#)

Login Page

■ Component Notes

- Left panel: branding, app name, decorative board previews to show product value
- Email field: auto-focus on page load, validate format on blur
- Password field: show/hide toggle (eye icon) — add to right side of input
- Remember me: stores refresh token for 30 days instead of 7
- Forgot password: routes to Screen 3
- Sign In button: shows loading spinner while API call in progress
- Google OAuth: optional — add if time permits
- Error state: show red border on input + error message below field
- On success: redirect to Dashboard (Screen 8) or last visited board

Screen 2 — Register Page

Create your account

Start managing work better, today

Full name

Ali Ahmed

Work email

ali@company.com

Password

Min 8 characters

Password strength: Good

Confirm password

☐ I agree to Terms of Service & Privacy Policy

Create Account

Already have an account? [Sign in](#)
[Register Page](#)

■ Component Notes

- Full name field: trim whitespace, min 2 chars validation
- Email: check uniqueness on blur via API (debounced)
- Password strength indicator: weak/fair/good/strong based on regex rules
- Confirm password: validate match on blur, not on every keystroke
- Terms checkbox: must be checked to enable submit button
- On success: send verification email, redirect to Screen 5 (email verification)
- Error: if email already exists — show 'Email already registered. Sign in?'

Screen 3 — Forgot Password

[← Back to Login](#)

Forgot your password?

Enter your email and we'll send a
reset link to your inbox.

Email address

ali@example.com

Send Reset Link

■ Check your spam folder if you
don't receive the email within 5 min

Forgot Password

■ Component Notes

- Token generated: `crypto.randomBytes(32).toString('hex')`, hashed and stored in DB with 1hr expiry
- Email contains: `/auth/reset-password?token=`
- Rate limit: max 3 reset requests per email per hour
- If email not found: still show success message (security — don't reveal if email exists)

Screen 4 — Reset Password

Set new password

Must be at least 8 characters

New password

Confirm new password

Reset Password

Token expires in 58 minutes

Reset Password

■ Component Notes
• Token verified on page load — if invalid/expired, show error immediately
• On success: hash new password, clear resetToken from DB, redirect to Login
• Invalidate ALL existing refresh tokens on password reset (security)

Screen 5 — Email Verification

Check your email!

We sent a verification link to
ali@example.com

Didn't receive it? Check spam or
Resend Email

I've verified my email

Email Verification

■ Component Notes

- Resend email: rate limited to once per minute, max 5 per hour
- Verification link: `/auth/verify?token=` — valid for 24 hours
- On verify: set `isVerified=true`, redirect to onboarding (Screen 6)
- Unverified users: limited access — can browse but not create content

ONBOARDING SCREENS (Screens 6-7)

Screen 6 — Create Workspace (Onboarding)

Step 1 of 2

Create your Workspace

A workspace is your team's home. Give it a name.

+ Logo

Workspace name

Acme Corp

URL: taskify.app/acme-corp

Workspace type

- ☒ **Engineering**
Dev and product teams
- ☐ **Marketing**
Campaigns and content
- ☐ **Design**
Creative projects

Create Workspace

Continue →

■ Component Notes

- Workspace slug: auto-generated from name, editable, checked for uniqueness
- Logo upload: Cloudinary upload, circular crop, optional
- On continue: create workspace in DB, set user as admin, go to Screen 7
- Skip option: allow skipping onboarding, go directly to dashboard

Screen 7 — Invite Members (Onboarding Step 2)

Step 2 of 2

Invite your team

Boards work better with your team

Invite link

taskify.app/invite/xk92mf

Copy

Or invite by email

sara@co.com

x

ahmed@co.com

x

Role

Member

Send Invites

or

Skip for now

Invite Members

■ Component Notes

- Invite link: unique per workspace, never expires unless regenerated
- Email tags: comma-separated or enter key adds email chip
- Role dropdown: Member or Admin — viewer role available per-board only
- Send invites: creates pending invite records, sends emails in background queue
- Skip: goes to Dashboard (Screen 8) with empty workspace

DASHBOARD SCREEN (Screen 8)

Screen 8 — Home Dashboard

■ Component Notes

- Stats cards: clickable — 'Cards Due Today' opens filtered card list
- Recent boards: last 6 boards user visited, most recent first
- Starred boards: user can star/unstar from board header (Screen 15)
- Activity feed: aggregated from AuditLog collection, paginated, real-time via socket
- Search bar: global search across all workspace content (Screen 27)
- Sidebar: Home, Boards, Members, Settings — active state highlighted
- Avatar top-right: dropdown — Profile, Notifications, Sign Out

WORKSPACE SCREENS (Screens 9-12)

Screen 9 — Workspace View (All Boards)

■ Component Notes

- Board cards: click opens board (Screen 14). Hover shows edit/archive options
- Starred filter: shows only boards the current user has starred
- + Create new board: opens inline form or modal — name, background color/image
- Board count badge: shows number of active cards
- Workspace header: logo, name, member count, invite button
- Visibility badge per board: private/workspace/public (lock icon / globe icon)

Screen 10 — Workspace Settings

■ Component Notes

- Tabs: General (this screen), Members (Screen 11), Billing (out of scope)
- Save Changes: PATCH /workspaces/:id — shows success toast
- URL field: validates uniqueness, shows availability check
- Danger zone: confirm modal with workspace name input before delete
- Only workspace admin can see Settings in sidebar

Screen 11 — Members Management

■ Component Notes

- Role badges: Admin (purple), Member (green), Viewer (grey)
- ■ menu: Change Role, Remove from Workspace
- Current user (Admin) cannot remove themselves
- Search: filters list in real time (client-side for small lists)
- Pending invites section below active members: shows email + Resend/Cancel

BOARD SCREENS (Screens 13-16)

Screen 13 — Empty Board

■ Component Notes

- Board background: color or image, set in Board Settings
- Board header bar: semi-transparent, always visible above content
- Visibility icon: ■ Private, ■ Workspace, ■ Public
- Star: toggles board as starred — persisted in user preferences
- Filter button: opens filter panel — by label, member, due date
- Members avatars: shows up to 5 member avatars, +N for more
- + Add a list: opens inline input (Screen 17)

Screen 14 — Board View (Fully Populated)

■ Component Notes

- Lists: horizontal scroll when more than 4-5 lists
- List header: name, card count badge, ■ options menu
- Card item: colored label strip, title, member avatar, due date badge
- Card: click anywhere opens Card Detail Modal (Screen 20)
- Drag and drop: react-beautiful-dnd — DragDropContext wraps board, Droppable per list
- Online presence: show avatars of members currently viewing this board (Socket.io)
- Filter active: faded cards that don't match filter, highlighted cards that do
- + Add card: inline input at bottom of each list
- + Add list: translucent button at end of list row

CARD SCREENS (Screens 19-26)

Screen 20 — Card Detail Modal (Most Important Screen)

 Sara: Looks good, adding unit tests tomorrow

■ Component Notes

- Modal: overlays board, click outside or × to close, no page navigation
- Title: inline editable — click to edit, blur to save (PATCH /cards/:id)
- In list: shows current list, click to open Move Card modal (Screen 21)
- Members: click + to open member picker (Screen 22)
- Description: rich text editor (TipTap or Quill), auto-save on blur
- Checklist: add items, check/uncheck, delete, show progress bar
- Comments: real-time via Socket.io, edit/delete own comments
- Right sidebar actions: each opens a sub-panel within the modal
- Labels: multi-select, create custom labels (Screen 23)
- Due date: calendar picker (Screen 24), overdue shows red
- Attachments: drag-drop or click to upload via Cloudinary (Screen 25)
- Move: change list or board (Screen 21)

- Archive: soft delete — hides card, recoverable from board settings

Screen 21 — Move Card Modal

■ Component Notes

- Board dropdown: shows all boards user has access to in workspace
- List dropdown: updates when board changes — shows lists for selected board
- Position: 1-based number, defaults to end of selected list
- On Move: PUT /cards/:id/move — updates listId, boardId, position, emits socket event
- Optimistic UI: card visually moves before API confirms

Screen 22 — Card Members / Assign

■ Component Notes

- Toggle assignment: click member row to assign/unassign instantly
- API: POST /cards/:id/members to add, DELETE /cards/:id/members/:userId to remove
- On assignment: send notification to assigned member (email + in-app)
- Socket event emitted: all board members see member avatar appear on card
- Search: filters workspace members by name or email

Screen 24 — Due Date Picker

Due Date

<

December 2024

>

S	M	T	W	T	F	S
						7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

Time (optional)

11:59 PM

Save Due Date

Remove

Due Date Picker

■ Component Notes

- Dates in past: greyed out, not selectable
- Selected date: highlighted in PRIMARY color
- Overdue: card shows red due date badge, overdue label
- Due soon (within 24h): yellow badge on card
- Remove button: clears due date from card
- Socket event: due date change broadcast to all board members

Screen 25 — Card Attachments

■ Component Notes

- Upload: POST /upload/card/:id — multer streams to Cloudinary
- Progress bar: track upload progress using XMLHttpRequest onprogress event
- Download: GET Cloudinary URL with content-disposition: attachment
- Delete: sends DELETE request, removes from Cloudinary AND card.attachments array
- Image preview: clicking image attachment opens lightbox preview
- File type icons: different icons for PDF, image, doc, zip

SEARCH + PROFILE + NOTIFICATIONS (Screens 27-29)

Screen 27 — Global Search

■ Component Notes

- Search: debounced 300ms — GET /search?q=auth&type=card&workspaceId=x
- MongoDB text index on Card.title, Card.description, Board.name
- Results: grouped by type (cards first, then boards, then members)
- Click card result: opens Card Detail Modal (Screen 20)
- Click board result: navigates to board (Screen 14)
- Filter chips: narrow results by type
- Highlight matching text in results

Screen 29 — Notifications Panel

■ Component Notes

- Bell icon: shows unread count badge, real-time via Socket.io
- Tabs: All, Assigned (card assignments), Mentions (@user in comments)
- Unread: blue background + blue dot indicator
- Click notification: marks as read + navigates to relevant card/board
- Mark all: bulk mark all as read
- Notification types: card.assigned, card.mentioned, card.due_soon, member.joined
- Real-time: new notifications appear instantly via socket event

USER PROFILE (Screen 28)

Screen 28 — User Profile

The mockup shows a dark-themed user profile settings page. On the left is a sidebar with a 'Taskify' header and a 'WORKSPACE' section containing links for Home, Boards (highlighted), Members, and Settings. The main content area is titled 'Profile Settings' and has three tabs: 'Profile' (active), 'Security', and 'Preferences'. Under the 'Profile' tab, there is a circular profile picture placeholder with the letter 'A', and buttons for 'Change Photo' and 'Remove Photo'. Below this are input fields for 'First Name' (Ali), 'Last Name' (Ahmed), 'Email Address' (ali@acme.com), and a 'Bio' text area containing 'Full-stack engineer. Love building products.' At the bottom, there is a 'Timezone' dropdown menu currently set to 'Asia/Karachi (PKT, UTC+5)'.

■ Component Notes

- Profile photo: upload to Cloudinary, circular crop — same upload middleware
- Security tab: Change Password (old + new + confirm), Active Sessions list
- Preferences tab: theme (dark/light), notification settings, language
- Timezone: used for due date display and notification timing
- Email change: requires re-verification if email changed
- Active sessions: show device, location, last active — revoke individual sessions

MOBILE VIEW (Screen 30)

Screen 30 — Mobile Board View (Responsive)

■ Component Notes

- Board list: full-width cards, bottom navigation bar (Home/Boards/Alerts/Profile)
- Board view: tab bar for list switching (swipe between lists on mobile)
- Card detail: full-screen modal on mobile, sections collapsed by default
- Responsive breakpoints: $\geq 768\text{px}$ = desktop layout, $< 768\text{px}$ = mobile
- Bottom nav: replaces sidebar on mobile
- Touch-friendly: all tap targets $\geq 44\text{px}$ height
- Drag and drop: disabled on mobile — use Move button instead (Screen 21)

Complete Screen Summary

#	Screen	Route / Trigger	Key React Component	Key API
1	Login	/login		POST /auth/login
2	Register	/register		POST /auth/register
3	Forgot Password	/forgot-password		POST /auth/forgot
4	Reset Password	/reset-password?token=x		POST /auth/reset
5	Email Verify	/verify?token=x		GET /auth/verify
6	Create Workspace	/onboarding		POST /workspaces
7	Invite Members	/onboarding/invite		POST /workspaces/:id/invite
8	Dashboard	/		GET /workspaces
9	Workspace View	/:workspaceSlug		GET /workspaces/:id/boards
10	Workspace Settings	/:workspaceSlug/settings		PUT /workspaces/:id
11	Members	/:workspaceSlug/members		GET /workspaces/:id/members
12	Invite Link	/:workspaceSlug/invite		GET /workspaces/:id/invite-link
13	Empty Board	/:workspaceSlug/boards/:id		GET /boards/:id
14	Populated Board	/:workspaceSlug/boards/:id		GET /boards/:id
15	Board Header	Part of BoardPage		PUT /boards/:id
16	Board Settings	Modal on BoardPage		PUT / DELETE /boards/:id
17	Add List	Inline on BoardPage		POST /lists
18	List Actions	Dropdown on ListColumn		PUT / DELETE /lists/:id
19	Card (collapsed)	Part of ListColumn		—
20	Card Detail Modal	Click card		GET/PUT /cards/:id
21	Move Card	Card modal action		PUT /cards/:id/move
22	Assign Members	Card modal action		POST /cards/:id/members
23	Labels	Card modal action		PUT /cards/:id
24	Due Date	Card modal action		PUT /cards/:id
25	Attachments	Card modal action		POST /upload/card/:id
26	Checklist	Card modal action		PUT /cards/:id
27	Search	/search		GET /search?q=x

28	Profile	/profile		PUT /users/me
29	Notifications	Bell icon dropdown		GET /notifications
30	Mobile	Responsive	All components	Same APIs

Now say 'start Day 1' — let's build this.
